

14th International Symposium on Frontiers in Biomedical Polymers

On behalf of the Organization Committee, we cordially invite you to attend the 14th International Symposium on Frontiers in Biomedical Polymers to be held from **June 11th - 15th, 2023** in Portsmouth, New Hampshire, USA. This meeting is the 14th edition of the FBPS, organized by Dr. David Kaplan and Dr. Qiaobing Xu of Tufts University: www.fbps2023.org.

This symposium provides a unique opportunity for the discussion of past, present, and future research on bioactive and functional polymers for advanced biomedical applications, drug release, and tissue engineering. The exciting scientific program will cover basic to applied themes. This is a forum for a global audience of students, postdoctoral scholars, and established scientists from different countries to exchange ideas, broaden knowledge, and develop collaborations.

ABSTRACT SUBMISSIONS

Individuals interested in presenting a poster or delivering a contributed talk may submit a title and abstract to:

fbps2023@gmail.com by March 1, 2023.

Please note: Presenting authors must attend in person; there will be no virtual presentation options.
